Procedures for Purchasing or Procurement of Goods and Services

In purchasing goods and services for Fort Hays Tech | North Central, the Board of Trustees feels a responsibility to both the local businesses and the taxpayers of the participating districts. They feel a responsibility to buy from our local businesses since these businesses are owned by people paying taxes to help support Fort Hays Tech | North Central. In addition, they are obligated to all Kansas taxpayers to operate the College as efficiently as possible. Therefore, these commitments should be kept in mind when requesting goods and services. The matter of convenience and satisfactory service to the College should also be a determining factor in selecting businesses from which to buy. Long-term obligatory commitments to businesses for goods and services should be avoided.

All purchases are to be made through the purchasing procedure. Each department head is responsible for the requisition and use of departmental supplies. Invoices should be submitted to Accounts Payable as soon as possible after receipt of the invoice, but no later than Thursday of the week of receipt. All purchases, other than those that can be purchased and recorded on a local vendor log, must have prior approval of the supervising administrator.

Procedures for Purchasing or Procurement of Goods and Services

- 1. All purchases start with the completion and submission of a Fort Hays Tech | North Central "Purchase Requisition" form. The requisition form is the internal document used by the requestor to identify specific goods or services being requested, and with which to obtain authorization to purchase these goods and services. Goods or services are defined as any item(s) of equipment, supplies, materials, and services of any type or nature, and travel. Departments should submit requisitions online with copies of quotes or invoices attached. Once submitted, the requisition will be forwarded to their respective supervisor(s) for review and approval, whereby they are forwarded to the Vice President of Finance & Hays Operations for final approval.
- 2. When requisitions are approved by the Vice President of Finance & Hays Operations they are forwarded to the Accounts Payable Clerk for generation of an official Fort Hays Tech | North Central Purchase Order, and entry into the college general accounting system. Once a purchase order has been issued, a purchase on behalf of the College may be made.
- 3. The online purchase requisition will be moved back to the status of the Department Chair or staff who initiated the requisition. When the product is received, the Department Chair or staff will enter the item as received online. The requisition will then be forward to the Accounts Payable Clerk. If there is a discrepancy, the Department Chair or staff will notify the vendor for resolution before the requisition is received online.
- 4. Purchases for materials that are of routine or recurring nature may be procured from established vendors with revolving credit arrangements without individual requisitions up to the amount of \$350 per transaction. A payment requisition with attached receipts must be submitted in Docuphase.
- 5. Purchases may be made immediately due to emergency or exigent circumstances. The purchases over \$350 must be pre-approved by the Vice President of Finance & Hays Operations. If the VP of Finance & Hays Operations is not available, approval can be obtained from the President of Fort Hays Tech | North Central.

Travel Expense Policy

Fort Hays Tech | North Central employees may be required to travel in fulfilling their official duties or in attending seminars or other professional or educational activities benefiting the College. The College may reimburse employees, within prescribed limitations, for all necessary and actual travel expenses incurred during travel on official college business. All travel by employees shall be entered into the online purchase requisition system for approval. Employees should provide themselves with sufficient personal funds for all anticipated expenses.

Advances from the College to cover expenses are not allowed. In exceptional circumstances or hardship cases, an advance for travel must be authorized by the Vice President of Finance and Operations for an amount that will cover the anticipated travel expenses. If a travel advance is given to an employee, the employee is required to turn in a Statement of Travel Expenses along with receipts upon returning to the College. If the allowed expenses are less than the advance, the employee is expected to reimburse the College immediately for the difference. If the employee cannot immediately pay back the difference, travel advances are recoverable from the employee by:

- 1. Set off against the accrued pay or other amounts due to the employee; and
- 2. Other methods provided by law.

If a traveler paid for another traveler's expense, these expenses are still subject to the same limitations as for the employee. The employee is expected to turn in a statement of travel expenses online or by presenting to the Vice President of Finance and Hays Operations upon returning to the College. The employee is required to turn in all receipts and required documentation with the statement of travel expenses.

College Vehicle Use

A person must have a valid driver's license and a clean driving record for three consecutive years to operate a college owned vehicle. Whenever expenses for college owned vehicles cannot be charged or paid directly by the college, employees may be reimbursed for routine expenses incurred for gasoline, oil, lubricants, tolls, parking fees and other similar purchases. Employees may also be reimbursed for properly authorized expenditures for vehicle repair and maintenance. Receipts verifying expenditures should be submitted with the employee's statement of travel expenses.

College vehicles need to be reserved in advance. The Hays campus reserves cars individually in the BOC Main Office. Beloit employees will reserve college vehicles from the Administration Office's Administrative Assistant.

Private Vehicle

Employees should use college owned vehicles whenever possible. An employee needs authorization from their supervisor prior to travel to use a private vehicle for official college business. Employees authorized to travel by private vehicle may be reimbursed for allowable standard mileage at the standard business mileage rate established by the Internal Revenue Service. This reimbursement rate is considered to cover all costs associated with the use of the privately-owned vehicle. This includes, but is not limited to: gasoline, oil, tires, repairs, insurance, license fees, depreciation costs and expenses of any type.

Mileage will be calculated as the distance between the college and the location of the meeting/lodging.

Public Transportation

An employee may get authorization for general public transportation such as commercial air flights, passenger trains, buses, etc., if the transportation is determined to be the most economical and advantageous to the college. Employees are reimbursed for authorized public transportation expenses incurred by submitting the official transportation receipt with the employee's statement of travel expenses except when tickets are purchased directly by the college. Employees may also be reimbursed for transportation expenses and parking fees incurred for travel to and from the college, the airport or other terminal, the lodging establishment and the meeting location.

Lodging Reimbursement

Taxes and fees associated with lodging are not considered when applying the maximum lodging limit to the traveler's lodging rate. If the lodging rate is more than the limitation rate, the motel must be a conference motel, or the traveler must have prior approval from the Vice President of Finance and Hays Operations in order to receive full reimbursement.

Meal Reimbursement

Employees may be reimbursed for meal expense while in travel status. Employees should take advantage of hotel free breakfasts and conference meals when possible. Employees will not be reimbursed for any alcoholic drinks. The meal allowance rates are as follows:

Class Attendance & Absence Policy

Class attendance is necessary for students to learn and succeed. The college intends to establish expectations which resemble those of a workplace environment. Students are expected to attend class every session. Students should be punctual in their attendance and participate fully in all class-related activities; including labs, shop, and field trips. Students are accountable for their absences and responsible for providing instructors with advance notice of any absence

To produce the desired attendance habits instructors should clearly state expectations, consistently apply the attendance policy to all students and provide meaningful activities for class each day that are assessed for a grade. It should be each instructor's goal to help students improve their attendance and enforce a policy that promotes student success.

Due to the diversity of program offerings and the various formats in which they are delivered, the College allows each department to develop their own attendance policy best suiting their program. Each department/program is responsible to:

1. Develop an attendance policy that applies to each course they teach with reasonable expectations clearly stated in the syllabus.

Each instructor is responsible to:

- 1. Inform students of the program's attendance expectations and include the policy in the syllabus for each course.

Viable attendance policies will include:
